

Invitation to  
**An Exclusive  
Live Podcast Event**

presented by **PrimeResi**  
and **The Integrated Home**

## **CLEVER THINKING ON SMART TECHNOLOGY**

Improve prime property yields with thoughtful investment in home automation

presented by **PrimeResi Journal** and **The Integrated Home** podcast

Smart home technology is a must-have within prime residential property schemes.

But, how can you maximise yields with the right level of investment to meet agent and buyer expectations? How do you create a practical and affordable technology specification? Where do you find the right contractor for your project? And, what trends are likely to have an impact on schemes of the future?

We are teaming up with The Integrated Home podcast in an exclusive live recording of the show to answer these and many other questions in front of an invited audience of PrimeResi members.

**Featuring an expert panel, starring:**

**Nick Fichte, Crestron EMEA**  
Residential Regional  
Sales Manager

**Alex Isaac, EcoWorld**  
Director

**Harri Williams-Jones, Savills**  
Associate Director, Super-Prime  
Residential Development Consultancy

**Jonathan Cooper, The Next Level**  
Managing Director

**Hosted by Jeff Hayward of The Integrated Home podcast**

You will also have the opportunity to experience advanced and immersive Dolby Atmos audio and imaging for home cinema during the evening.

Attendance at this exclusive live recording event is by invitation only. Numbers are strictly limited; please RSVP to secure your place. Visit [www.PrimeResi.com/Podcast](http://www.PrimeResi.com/Podcast) for more information.
